

Career Discovery

Below are several resources that can help you as you search for your career. Feel free to use all of them or choose the one(s) that fit best for you.

Focus 2:

Whether you are just starting out or have been working for a long time, you may be struggling to find a good fit in your career. Learning about yourself, including your skills, interests, and personality is a great place to start your journey to a satisfying vocation.

FOCUS 2 is an online career and education planning system for helping you identify your gifts, build your career goals, and learn job information. Create a new account using your official delta.edu account. The form will ask for an access code. You can use the **access code: delta** to create your account.

Resume & Cover letter Preparation:

As a student at Delta College, you have access to [Big Interview](#) which is an online resource that provides training for creating high quality resumes and cover letters. You can learn more about the interview help that this application offers in the section below. Once you set up an account using your Delta email, you can navigate to the “Resumes” dropdown to find the Resume Curriculum and Resume Builder.

Interview Preparation:

As a student at Delta College, you have access to Big Interview. This is an online resource that provides both training and practice to build your interview skills. The three videos below give you an overview of the program, explain the various training options available, and walk you through practicing for your interviews.

You will see that you can personalize your interview practice based on the industry, or the level of position for which you are applying. You can also just choose to practice the top 10 most asked questions. You can also make a video recording of your answers so that you or someone else can review your responses to help you get better at the process.
